contact us at info@childwise.org.au or call **1300 CHILD WISE**

About Child Wise

Child Wise is a social enterprise that exists to ensure the safety of children and young people in organisations where they spend time. We deliver public training at a range of locations throughout Australia. Public training is a great way to train one or two people from your organisation.

Child Wise can also come to you and deliver training to your staff at your organisation. In-house training is recommended for organisations that need to train groups of staff and volunteers, or the board/leadership team. It can be delivered in its standard format or customised to suit your organisational needs and context.

If you have any questions or would like to book an in-house training session, contact us to discuss your needs and get a free quote.

2020

Training Programs

These are programs we deliver publicly, but that can also be delivered in-house to your organisation:

Child Safe Fundamentals

This 3-hour program provides an overview of the National Principles for Child Safe Organisations and where specific state child safe standards fit, depending on where your organisation is located.

It aims to assist staff and volunteers to understand the legislative context and how the Principles/Standards apply to their organisation and to their day to day work with children and young people.

Child Safe Fundamentals is suitable for staff and volunteers who work with children and/or young people and have some prior understanding of child protection.

Child Safe Organisations

This 1-day program unpacks the actions that organisations need to take to ensure they are safe for children and meet their obligations to meet state and federal Government Child Safe Standards and Principles.

This program is for anyone in an organisation in a leadership or management position, or who has responsibility for keeping children safe via a child safeguarding portfolio.

Using the national child safety principles, it presents an overview of human resource requirements, policies, procedures and practices that strengthen the capacity of organisations to provide a safe and empowering environment for children and young people.

Child Safety Champions

This is an intensive 2-day training program designed to give you the skills and knowledge to lead a child safeguarding portfolio or reform in your organisation.

This training program is recommended for experienced professionals who have a responsibility to lead the implementation of a child safe environment for children and young people. This can include HR professionals, leaders and managers who have prior training or knowledge of child protection.

Participants of this program are provided with a 12-month individual Child Wise Community of Practice membership. This membership provides access to a broad range of resources to support you at work and beyond, and it also includes access to scheduled webinars and events.

Please refer to our website for a full list of our programs that are available for in-house training.
